SKILLS

- **Languages:** C, C++, Python, JavaScript
- **Technologies:** HTML, CSS
- **Databases/Tools:** MySQL, PostgreSQL, Git
- **Soft Skills:** Adaptability, Critical Thinking, Problem solving, Team collaboration, Time management

PROJECTS

Smart Classroom Management System

Dec 2025 - Jan 2026

- Engineered the system per IEEE 830-1998 standards to support 500 concurrent users, sub-3-second response times, and 99% uptime.
- Designed a secure authentication system with role-based access across 3 user roles, password hashing, session timeouts, and failed-login tracking.
- Automated daily attendance tracking for teachers, calculating real-time percentages and generating admin reports in under 5 seconds.
- Built an end-to-end assignment pipeline across two user roles, covering upload, submission, and grading, with deadline locks to block late submissions.
- Developed a 3-step online examination pipeline — test creation, auto-calculated grading, and instant result access for students.
- Delivered 3 role-based dashboards (Admin, Teacher, Student) plus 3 dedicated interfaces for attendance, assignments, and reports, unifying the platform's UI end-to-end.
- **Tech Stack:** MySQL / PostgreSQL, Email API, SMS Gateway API

TRAINING

Lovely Professional University

Jun 2026 - Jul 2026

Machine Learning & Artificial Intelligence – Summer Training

AI/ML Trainee and Machine Learning Developer

- Learned core concepts of Python, NumPy, Pandas, data preprocessing, and exploratory data analysis for machine learning applications.
- Implemented supervised and unsupervised machine learning algorithms, including regression, classification, clustering, and model evaluation techniques.
- Worked on an end-to-end machine learning project covering data collection, preprocessing, feature engineering, model training, evaluation, and prediction.
- Built and evaluated ML models using Scikit-learn, applying appropriate performance metrics to compare and improve model results.
- Gained practical understanding of AI/ML workflows, dataset handling, model optimization, and real-world problem.

CERTIFICATES

- Introduction to Cyber Security | **INFOSYS** Mar 2026
- Introduction to Python | **Saylor** Feb 2026
- AI For All | **Intel** Oct 2024

ACHIEVEMENTS

- Solved more than **100** programming problems on online coding platforms during regular practice and learning.
- Achieved the **LeetCode 100 Days** Badge by maintaining consistent daily problem solving over time.

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology – Computer Science and Engineering (AI&ML); **CGPA: 8.98** Aug 2025 - Present
- **Army Public School** Chennai, Tamil Nadu
Higher Secondary Education; **Percentage: 81.2%** Apr 2023 - Mar 2025
- **Army Public School** Meerut, Uttar Pradesh
Secondary Education; **Percentage: 87%** Jun 2021 - Mar 2023
